

ANTA
BATTENTE
VICO
HINGED DOOR

Vico è un nuovo progetto che espande la gamma degli armadi ad anta battente. È dotato di una maniglia a incasso che ne facilita l'apertura. Per il suo stile discreto e lineare, Vico si abbina con facilità agli armadi Alfa e Gola, con cui è possibile creare spazi da attrezzare con specchi, panche o scrittoi progettati ad hoc. Un modo inedito e funzionale di interpretare l'armadio a parete. Come tutti gli armadi con anta battente, può essere progettato con fianco terminale in vetro e attrezzato all'interno con il divisorio telaio, anche dotato di illuminazione a LED.

Vico is a new design that broadens the hinged door wardrobe range. It features a recessed handle that makes it easy to open. With its understated, linear style, Vico lends itself effortlessly to Alfa and Gola wardrobes that can be used to create spaces you can accessorize with mirrors, benches or desks designed ad hoc. An unprecedented and functional take on the fitted wardrobe. Like all the hinged door wardrobes, it can be designed with a glass end side panel and the interior fitted with the metal frame partition, which also has a LED lighting option.

RIDUZIONI A MISURA / CUTTING TO SIZE

L'anta VICO può essere ridotta in altezza.

VICO doors can be reduced in height.

ARMADIO BATTENTE / PIEGHEVOLE HINGED / FOLDING WARDROBE

Nei moduli battenti con doppia anta, l'anta di sinistra è sempre con battuta parapolvere. Le ante vengono fornite con cerniere rallentate e basette lineari a triplice regolazione premontate.

On modules with double hinged doors, left-hand door always has dust seal buffer. Doors come ready fitted with soft-close hinges and 3-way adjustable straight hinge mounting plates.

Note per la sicurezza / Notes on safety

L'apertura contemporanea di tutte le ante (per armadio battente o pieghevole) ad armadio completamente vuoto può causarne il ribaltamento, quindi va previsto tassativamente il fissaggio a muro.

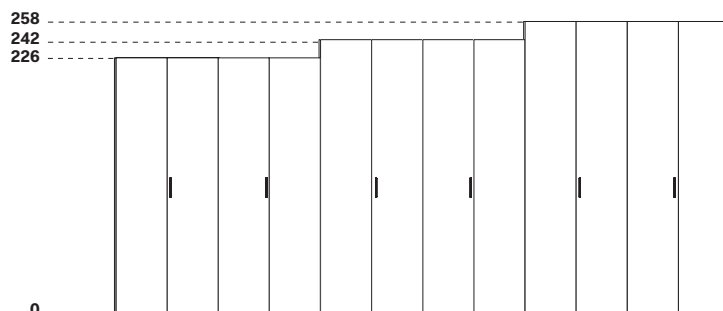

Opening all doors (on wardrobes with hinged or folding doors) at the same time with the wardrobe completely empty may cause it to tip over, hence it must be fastened to the wall without exception.
